

PROSPECT OF AN AGREEMENT HAS IMPROVED

Holland-German Situation Still of Uncertain Nature

(By Associated Press)
AMSTERDAM, April 27.—According to The Hague Viceroy, the prospect of an agreement between Holland and Germany has slightly improved since yesterday. While it has been agreed to reopen the Limbourg Railway there is still a difference regarding the nature and extent of transport over the road and by waterway. The Telegraf under the heading "If it must be" recalls the German attack on Belgium and says:

"If Holland now is to be placed at the same cross-roads as Belgium then the government may be certain that the nation will rally around it in the hour of danger. Everyone will ardently hope that this cup may be spared us and is it not almost unthinkable that the crime which has been branded as Cain's mark on the forehead of the violator should be repeated against us? But if it must be, our motto will be 'They shall not pass'—neither they nor their necessities. We want peace, but we fear dishonor more than war. Holland will remain herself."

Still Maintains Ground
London, April 27.—Dispatches from Holland this afternoon say that, although according to The Hague Viceroy, the questions of customs difficulties of which Germany had complained and the use of the Limbourg railway, which Germany demanded have been settled in her favor Germany still maintains her ground on the sand and gravel question. Germany has expressed much annoyance at the stoppage by Holland of Rhine traffic and the fact that Holland negotiated with the United States regarding the cession of Dutch ships before their seizure and concealed these negotiations from Germany. As a result says a dispatch from The Hague to the Amsterdam Telegraf the feeling there has never been more pronounced. There is an impression in some quarters in Holland that so long as von Kuehlmann remains foreign secretary Holland will not be pressed to the extreme. But this view is not held by others who dispute it on the ground that while von Kuehlmann and his party are sincere they have little influence in the conduct of German affairs, the real rulers being the military party which has its eyes on the Dutch and North Sea ports.

The Viceroy urges the Dutch premier to form a national cabinet.

NEW LEGAL BATTLE IN TOM MOONEY CASE

Opened After It Was Thought All Possible Legal Services in Prisoner's Behalf Had Been Exhausted.

(By Associated Press)
San Francisco, Cal., April 27.—A new legal battle which may take the case of Thomas J. Mooney awaiting re-sentence to death on a murder charge to the United States supreme court was opened here today after it was thought that all possible legal services in Mooney's behalf had been exhausted. Maxwell McNutt, Mooney's chief counsel, filed notice with Judge Franklin A. Griffin, that on next Thursday he will move that all previous proceedings in Mooney's case be set aside and that he be granted a new trial on the ground of wilful fraud and malfeasance on the part of the prosecution. The notice was an unusual one. Judge Griffin declared he could not at once decide whether he had jurisdiction in the case. Meanwhile Mooney, who was scheduled to be re-sentenced today gained a short respite.

McNutt explained that his motion will be based on English common law which established that a judgment could be attacked where fraud had been committed and could be shown. He said the defense would offer proof of fraud in the proceedings. In the event that his motion is denied, McNutt said he would appeal and declared that the case could be carried to the United States supreme court on the ground that Mooney was deprived of his life without due process of law.

The prosecution objected strenuously to McNutt's proposal motion. District Attorney Charles Fickert who was charged with fraud in the notice said that if Mooney were not sentenced to death when the case was called Thursday he would appeal to the state supreme court for a writ of mandamus to compel Judge Griffin to re-sentence him to hang.

Affidavits to support the charge of fraud were filed by McNutt with his notice. They were made by Mooney himself, William H. Smith, acting inspector of the Oakland police department and F. E. Rigall of Grayville, Ill., who declared that efforts to induce him to testify falsely against Mooney had been made by F. C. Oxman of Oregon. Oxman was a material witness against Mooney and was acquitted later of attempted subornation of perjury in connection with Rigall's charges.

Rescinds Action.
Butte, Mont., April 27.—The workmen's union of Butte which last week voted to strike May 1 as a protest against the Mooney death sentence today rescinded its action after it had been called to the members attention that May 1 is the German labor day and that a strike at that time would be interpreted by the Prussian press as an anti war move.

SERIOUS THREAT AGAINST ALLIED NORTH DEFENSES

Gen. Arnim Attempting the Capture of Scherpenberg

(By Associated Press)
WITH THE BRITISH ARMY IN FRANCE, April 27.—The Germans today were holding Mont Kemmel, Kemmel Village and Dranoutre in France and the battle lines were drawn up east of Mont Ronge, Scherpenberg Hill, LaClytte and Dikebusch Lake. The situation at Locre is obscure.

It is obvious that the capture of Kemmel and the surrounding territory present a serious threat against the allied defenses in the north. It would be more serious if General von Arnim should succeed in his apparent attempt to take Scherpenberg and the other elevations in the chain of which Mont Kemmel is a part. Another enemy blow against these defenses may be expected at any time.

The fighting yesterday between Dranoutre and the Ypres-Comines canal was intense. The day opened with a Franco-British counter-attack in an endeavor to force the Germans from the positions they gained on Thursday and this move was followed quickly by another German attack. By nine o'clock the fighting was raging all along the line.

The contest between Locre and LaClytte in front of Scherpenberg was particularly fierce, for this elevation was one of the main German objectives. Three times the enemy troops were flung forward in force and on each occasion they were thrown back. The fourth assault, however, carried them into Locre. Further desperate attempts by the enemy to break thru in front of Scherpenberg failed and he suffered heavy losses. The attacks along the Ypres-Comines canal were continued throughout the day and the enemy pushed forward to the region of Voormezele.

To the southeast the Germans carried the battle to the neighborhood of the Kemmelbeek river. An enemy attack on the ridge wood east of Dikebusch at four o'clock in the afternoon was repulsed completely with heavy losses to the Germans.

A strong German attack was delivered against Givency-Les-LaBasse yesterday afternoon but the enemy was beaten off with little change in the situation. Peubert and Givency were shelled heavily during the night.

LOAN OFFICIALS DISAPPOINTED IN WORK SATURDAY

Seventy Percent of Minimum Total Reached

(By Associated Press)
WASHINGTON, April 27.—Nineteen days of liberty loan campaign closed tonight with the government assured of \$2,178,877, 00, seventy percent of the three billion minimum requirement. Six working days remain in which to develop a five billion total from 20,000,000 subscribers—the record for which the treasury hopes.

Liberty Day subscriptions reported to headquarters today totaled \$146,000,000 but there were indications that many millions were received in pledges not supported by initial payments and therefore not included in the official tabulations. Regardless of this condition, officials appeared disappointed in the day's work.

To reach the three billion dollar mark by next Saturday night when the campaign closes, it will be necessary to maintain a daily average of \$111,000,000 and to reach five billions \$445,000,000 a day is required. These figures do not provide for the great inflow of pledges expected on the final day. Three districts, Kansas City, Minneapolis and St. Louis now have oversubscribed.

District reports show the following subscriptions and quota percentages:

District	Subscription	Pct.
Minneapolis	\$135,012,300	119
St. Louis	\$143,858,650	119
Kansas City	\$130,338,200	100
Chicago	\$352,330,300	82
San Francisco	\$164,815,450	78
Dallas	\$161,871,650	77
Boston	\$183,918,150	73
Philadelphia	\$174,068,000	69
Cleveland	\$200,864,950	66
New York	\$338,742,700	59
Richmond	\$71,805,250	55
Atlanta	\$1,251,450	34

The Chicago district today broke its tie with San Francisco for fourth place by going eight percent while San Francisco increased only four per cent.

Vermont and Mississippi were among the states which went over their quotas today and were among the first states in their respective districts to achieve their quota.

WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

By one of those "Back to the wall" stands for which they have been famous in the war the Franco-British forces have saved the situation in the Ypres sector from turning into an immediate big success for the Germans after the loss by the allied forces of the dominating peak of Kemmel. Had the enemy been able at once to develop his success in the Kemmel sector as he attempted to do, the result probably would have been disastrous to the allied troops in the Ypres salient. The British however, held firm against the attacks which lasted all day yesterday in the neighborhood of Voormezele, two miles south of Ypres, and the French were equally firm in defending the line in the sector of Locre, west of Kemmel, protected by the heights of Monte Ronge and Scherpenberg.

Thus the enemy was brought to a standstill for the time being and Saturday morning did not bring with it the resumption of his infantry attacks. He was assumed to be preparing for a renewal of the assault, however, while the Anglo-French forces were establishing themselves more firmly for the defense of the hill positions lying back of Mont Kemmel at which it is said General von Arnim, commanding the German army in the Ypres sector will next strike.

The next day or two probably will decide whether the allied command will attempt to cling to the extreme high command circles it in the face of the threat to immediate rear of the Ypres positions.

A British withdrawal has been predicted by many of the military observers altho the British war office has declared such a move was not necessarily forced by the loss of Mont Kemmel.

The military situation in Flanders as a whole does not seem to be a particularly happy one for the allied viewpoint. The scheme of the extreme high command circles it in the face of the threat to immediate rear of the Ypres positions.

In the south, indeed below the Somme new evidence has been given of the strength of the allied position thru the continued progress the British have been able to make between Villers-Bretonneux and Hangard and the success of the French in again forcing their way into Hangard village and possessing themselves of other valuable ground in this region.

The Germans as the week closed were virtually no nearer their objective, the allied base at Amiens, than they were before their smashing attack on Wednesday between the Somme and the Avra, while several more of their divisions have been badly smashed in the fighting against the British and Franco-American defense.

MYSTERY SURROUNDS LIFE OF DETROIT MAN

Career of German Who Took His Own Life at Highland Jail Is Being Investigated by Authorities.

Detroit, Mich., April 27.—One woman known to be dead, three missing more than a year and a fifth seeking to recover \$3,500 alleged to have been stolen from her and two others, widow and daughter of the dead man being questioned in connection with the case, was the way the prosecutor's office tonight tabulated developments in the mystery surrounding Helmut Schmidt.

Schmidt, who took his own life at the Highland Park jail Tuesday after his arrest in connection with the death of August A. Steinbach of New York, left an estate valued at approximately \$20,000, it was stated today. In searching for the three women, authorities at Lakewood, N. J., and Detroit were excavating the premises of Schmidt's former home in the belief that they may have met with foul play. The women are:

Anita Schmidt, his first wife with whom he lived in Lakewood in 1913; Margaret Darsch, who is said to have accompanied Schmidt to Germany and who disappeared suddenly a short time after Anita Schmidt; and Irma Palladius, who acted as Schmidt's housekeeper here.

Mrs. Adele Ulrich-Braun, who claims to have been married to Schmidt, posing as Emil Braun in Lakewood in 1914 and who alleges he robbed her of her life savings, was identified by Gertrude, the 17 year old daughter of Schmidt. Mrs. Braun like the Steinbach girl met Schmidt thru a matrimonial advertisement in a New York newspaper. The police were unable during the day to add to the information given them by Mrs. Braun that her husband acted as a German agent, making maps of fortifications on New York harbor.

Schmidt at the time of his arrest was employed as an engineer in a local automobile factory.

VOTES FORECAST A VICTORY FOR ADMINISTRATION

Overman Bill Amendments Defeated By Narrow Margins

(By Associated Press)
WASHINGTON, April 27.—Victory for the administration in the long senate fight over the bill to confer blanket authority on the president to reorganize government departments and war agencies, was forecast late today in the defeat by narrow margins, of amendments exempting the Federal Reserve board and the interstate commerce commission from the operation of the law. Both amendments were offered by Senator Smith of Georgia, and opponents of the bill concentrated their strength on them. The first, to exempt the federal reserve board, was rejected 41 to 37 and the second, relating to the interstate commerce commission was voted down 42 to 35.

With these tests of strength, which administration leaders said and senators among the opposition admitted presaged passage of the bill without limitations on the blanket authority insisted upon by President Wilson the senate adjourned until Monday when it was expected the bill would be passed without important changes in the vote on the amendment today ten Democratic senators voted to limit the president's authority. Seven Republicans however voted with the Democratic majority against exempting the federal reserve board. Another Republican, Senator Borah of Idaho, joined them in voting down the amendment affecting the interstate commerce commission.

The tide of today's debate which was as spirited as any since the bill was first brought before the senate, April 2—swung apparently with increased force in favor of the bill. Senators Colt, McLean and McCumber making addresses supporting the measure and declaring that they felt no apprehension that the power as conferred in the bill would be abused by the president as feared by some.

Senator McCumber, however, voted for the amendments. Before the final vote on the bill is taken next week, it is planned to have the senate vote again on the amendments defeated today as well as on other pending amendments proposing express limitations on the president's authority to co-ordinate government agencies.

Senator Overman however, as a result of today's vote expressed confidence that the measure would be passed in the form the president has repeatedly insisted upon.

PROCLAIMED THE EMPEROR OF RUSSIA

Grand Duke Nikolaievitch to Throne—Work of Germans?

(By Associated Press)
LONDON, April 27.—A dispatch from Copenhagen to the Exchange Telegraph says it is reported there that a counter revolution has broken out in Petrograd. It reports that while no telegrams have been received from Petrograd for several days, there are rumors from Finland that there is serious rioting at the capital and that the rumor is persistent that Grand Duke Alexis Nikolaievitch has been proclaimed emperor and that the Grand Duke Michael Alexandrovitch is the real leader in Russian affairs.

Definite Reports.
Copenhagen, April 27.—The Stockholm Aftonbladet says that definite reports have been received from Abo, Finland, that Grand Duke Alexis Nikolaievitch, son of the former emperor of Russia has been proclaimed emperor with Grand Duke Michael Alexandrovitch as regent.

When Emperor Nicholas abdicated the Russian throne at midnight March 15, 1917, he also renounced succession to the crown of his son, Grand Duke Alexis in favor of Grand Duke Michael Alexandrovitch. The next afternoon Grand Duke Michael himself abdicated, thus bringing the Romanoff dynasty to an end.

Where the proclamation referred to in the foregoing report issued is not apparent from the Copenhagen dispatch.

See Work of Hun.
Washington April 27.—Reports from Copenhagen of persistent rumors from Finland that Grand Duke Alexis Nikolaievitch, son of the former czar of Russia has been proclaimed emperor of Russia, were taken here to indicate that Germany was attempting to carry thru a well formulated plan for restoring a monarchy in that revolution torn country.

While no reports of a new revolt in Petrograd have been received at the state department from Ambassador Francis at Vollogada news of an uprising would not come as a surprise. It long has been believed here that Germany's real purpose was to restore the monarchy, supported by German influence, money and intrigue.

The removal of the Bolshevik government from the capital to Moscow was believed to have paved the way for the carrying out of the German plan. Reports have been received here that German soldiers formerly prisoners in Russia have been overrunning the capital and have made of it a German center.

REORGANIZING FORCES FOR A NEW ASSAULT

Germans Attempt No Further Attacks in Kemmel Sector

(By Associated Press)
WITH THE BRITISH ARMY IN FRANCE, April 27.—An intense bombardment of the allied positions in the Kemmel sector has been continued by the German gunners, but up to noon today the enemy had made no further attacks in this region. General von Arnim was busy consolidating the positions won yesterday and reorganizing his forces for a new drive against the other hills held by the allies west of Kemmel.

The German commander will have to bring up fresh troops for further operations for the casualties suffered by the enemy yesterday were exceedingly heavy. Proof of this was given by one distressing sight on the battlefield over which the contending army struggled. During yesterday's attacks by the enemy one British brigade inflicted four times as many losses as they themselves suffered.

The proportion might not hold good for the whole sector, but certainly the German losses were excessive at many points. At Locre, which the French re-captured last night and where the fighting raged most of the way, the number of German dead was very large.

General von Arnim employed about ten divisions in yesterday's assaults, five of which were fresh troops. This meant that on a front of about 10,000 yards between Dranoutre and the Ypres-Comines canal, the allies had a total of 120,000 troops against them. One of the new German divisions arrived at Kemmel from Verdun April 24.

The French in last night's operations not only drove the Germans from Locre but took Hespice and Locre-la-Farm, two strong points lying to the southeast of the village. Locre was one of the most hotly contested points along the front.

The allied attack south of Villers-Bretonneux gave rise to very heavy fighting. Some progress was made toward re-claiming this position which the enemy held as a result of the German push on Wednesday. The enemy in a counter-attack threw themselves against one French division seven times without being able to get forward.

The British today had nearly nine hundred German prisoners in the cages as the result of other counter operations which began Wednesday night. The British yesterday also took several hundred in the fighting north of Kemmel.

BRITISH CASUALTIES FOR PAST WEEK

LONDON, April 27.—Casualties in the British ranks reported this week totaled 18,360. The losses were divided as follows:

Killed or died of wounds—Of 488; men, 2,650; strong.

Wounded or missing—Officers, 2,071; Men, 13,229.

Despite the heavy fighting for more than a month past the British casualties reported are only beginning to approach the high figures for last year when the British were on the offensive on the western front. The increase recently has been on the average of 50 per cent, each week preceding. Last week the aggregate was 12,368 and the week previously 8,129.

PLENTY OF FARM WORKERS HERE

The government is sending out a vast amount of publicity about the need for farm labor. Extensive movements are under way for manning the farms. Yet it is a noteworthy fact that in this community every farmer who advertises for a "hand" finds eight or ten men ready to enter his employ. It may be different later but there is no dearth of farm workers in this locality now.

IDEAL MUNICIPAL GOVERNMENT.

In reading about the weakness of the commission form of government as viewed by Mr. Hartgrove, one is reminded of the discussion which attended the change from the aldermanic plan to the commission form. In that day vigorous was the denunciation of the aldermanic form, with its minority ward representation, and the favorite charge was that a mayor with keen political judgment could so distribute the jobs and align the majority of aldermen on his side that he ruled the whole situation with the ease of a czar. After all, it isn't the form

of government that counts in municipalities, it is the men that are elected to office. It is possible to have just as efficient an administration under one form as under the other if exactly the right men are chosen. This thing of selecting exactly the right officer for the right position cannot be accomplished by any system.

THE NEED FOR PHYSICIANS.

It now seems certain that unless more physicians volunteer for army service that some method will be necessary to require their service. It is said that the government now needs 8,000 physicians for the army, the early induction of an additional 800,000 soldiers making this demand for physicians imperative.

It is a matter of record that physicians in the armies of the allies are working 16 hours and sometimes 24 without relief so vast is the amount of work which confronts them. And it must be confessed that it was not a reassuring message that a wounded German officer who had been attended by an American physician gave when he said, "Tell your government to warn physicians that they must take great care of themselves when near the fighting line. Their insignia invites attack for we consider, because of their ability to minister and cure, each physician is worth 500 men in the field."

MORGAN COUNTY DESERVES AN ASSEMBLY SEAT.

Following their general rule, Republicans and Democrats in Sangamon county are already becoming active in their efforts to serve in the next general assembly. It is quite right and proper that Sangamon county should be represented in the assembly but isn't it about time that Morgan county be permitted to name the senator or to have at least one member of the legislature.

While no complaint can be made by Morgan county people of the inattentiveness of the representatives from the district in Sangamon county, it is certainly getting to a stage of "taxation

without direct representation" for this county. Because the population of Sangamon county is so much larger than that of Morgan county is no reason why thru endless years the Sangamon county people should carry off all the offices.

Unless some Morgan county resident is nominated and elected to the next assembly it will be time for the inauguration of a movement for reapportionment and the placing of this county in a district where the voters really have some direct voice in the law making program.

RUSSIA NOT AN EXAMPLE.

Somewhat it seems a waste of time for the American Institute of Social Service to have representatives studying social conditions in Russia for report on their conclusions to the institute. With such chaos ruling in that country certainly no ideas worthy of emulation here can be secured. This brings to mind that it was only about a year ago that certain economic theorists were referring to the "pure democracy" of Russia and were quoting the social and political program under way as something after which America might with benefit model. But the collapse which came very soon afterward in Russia gave proof that "pure democracies" are not built in a day and that a government truly representative of the people must result from a long period of growth. There must be less of ignorance and superstition in great Russia before democracy is really in the ascendancy there.

BELGIUM AND HOLLAND.

There would be nothing surprising about the news that Germany has attacked Holland and is terrorizing that little country when the fate of Belgium is remembered. Such action would be right in line with German policy and would give the imperial government territory to the north long looked upon with envious eyes. But that tenacity if taken will be of only a temporary kind for to add the "crime of Holland" to the "crime of Belgium" would but hasten the day of judgment.

As the possibilities of Holland's fate come into view they impress anew the world's debt to Belgium, and increase the admiration for the deep seated courage of that little nation. It took fine courage not exceeded in all history for King Albert and his people to resist the onslaught of the German hordes and to make that sacrificial stand for liberty and democracy. It is worth while to turn in memory frequently to Belgium's heroic history for it makes any of our sacrifices thus far, very, very insignificant.

THE BOND BUYING DUTY.

But a week remains of the Liberty Bond drive and the latest reports show that sales must aggregate this week \$900,000,000 if the \$3,000,000,000 goal is reached. Here in Morgan county the allotment was taken by the banks at the beginning of the campaign, so that it was certain on the first day that the requirements for this county would be fully met. In fact, several of the banks over-

subscribed their allotment. While the banking institutions purchased these bonds, they did so with the purpose in view of passing them on to the people.

There is no need to dwell upon the security of an investment in Liberty bonds or upon the high rate of interest for these facts are known to every citizen. There is, however, a patriotic duty in this matter and those who have not become Liberty bond purchasers owe a duty to the government which should be paid now. If you do not have sufficient funds on hand to make immediate payment for bonds, ask your banker what arrangements can be made for purchase. The government not only wants the money from the sale of Liberty Bonds for the prosecution of the war, but it also wants these bonds held by the people, and not merely by financial institutions.

Buy Liberty bonds and you have the best investment that any financial market can afford and the satisfaction also of having hearkened to your country's call.

TO THE PESSIMIST.

The world's topsy-turvy you tell us today,
But now is no time to be laughing and gay.
And so your mouth corners are turning them down
And a face once so winsome is puckered with frown.
All the gloom of the world has settled on you
While the glasses you're wearing are turning things blue,
And never a time do you look at the trees

Whose buds are just opening in face of "war seas,"
And the song of the robin is lost on your ear.
To him you don't listen, he fills you with fear.
You're all out of tune with the drum and the fife,
The battle you're losing, the battle of life.

Then hearken my friend, we wish you no ill,
Let us be of the mind, let us be of the will
And rally with joy for the country that calls.

Till we march around Jericho and down with its walls,
So swing into line with a laugh and a shout
And make us all glad to have you about.
For the old world is needing some cheering today,
Midst the boom of the cannon and the fall of the fray,
And laughing is catching like sneezing and such
Then don't be afraid that you'll give us too much.
S. A. Hughes.

Entertain for Misses Crawley.

Misses Reecie DeSilva and Georgia Souza entertained their Sunday school classes at Northminster church Saturday afternoon. The occasion was in honor of the Little Misses Margaret and Helen Crawley who are soon to leave for Detroit. The afternoon was very pleasantly spent in games and other amusements. Dainty refreshments were served. The Little girls will be greatly missed as they are industrious workers of the church. The members of the Sunday school classes regret to see them go but extend them the heartiest wishes for a happy future in their new home.

Announced Engagement.

At an informal knitting given Saturday afternoon by Mrs. Charles T. Mackness the engagement of her daughter, Miss Carrie Aletha to Lieutenant Fred K. Stewart of Camp Grant, Rockford, was announced.

The announcement was made in a unique manner. Saturday morning corsage bouquets of red roses and spring flowers were sent by messenger to the invited guests. The bouquets were tied with red, white and blue ribbon and concealed within were service cards. On one side was an invitation to the knitting and on the other the engagement announcement.

The Mackness home was tastefully decorated with flags and the national colors. On the table in the dining room was a centerpiece consisting of a huge white basket filled with American Beauty roses tied with a blue tulle bow. At 4:30 o'clock a four course luncheon was served, with the Peacock Inn as caterers. The same color scheme prevailed in the luncheon.

What You Should Know About "The Little Princess"
To follow "Rebecca of Sunnybrook Farm" an exceptional vehicle was desired, and "The Little Princess" was selected. The scenario was written by Frances Marion, from the book by Frances Hodgson Burnett, whose works, including "Little Lord Fauntleroy," have won great renown.

Miss Pickford plays the part of a girl who enjoys riches and suffers poverty and her many admirers will have an opportunity of seeing her in situations abounding with humor as well as pathos. In the course of the play, as Sara Crewe, she tells the great Arabian Nights tales, in the picturization of which magnificent settings of Oriental splendor are shown.

Marshall Neilan, who has directed Miss Pickford's recent successes, had charge of the production of "The Little Princess," which is staged on a stupendous scale. The scenes are laid in India and London.

A GOOD SIGN TWO TELEPHONE CALLS BRING TWO NASH ORDERS

Whenever an automobile keeps continually oversold, two facts are significant: First, that the automobile is either so far ahead of every other car in its price class that it sells itself; or that the representative of the automobile is a graduate in salesmanship. Not claiming to have qualities of salesmanship superior to those of competitors, it follows that the first named fact is most significant, viz: The Nash Six, with its "perfected valve-in-head motor," really sells itself. Rainy as it was all day yesterday, C. W. Jacobs, manager of the Jacobs Motor Car Co., received two telephone calls, each of which resulted in a sale of a Nash Six. Both calls came within two hours, one from a prominent farmer and the other from a banker. We are still a month behind with orders.

THE COMMISSION FORM OF GOVERNMENT (By W. N. Hargrove.)

Excuse me! The last time I wrote on the Commission Form of Government I was sick in bed and dictated from my bed room and had only a City Ordinance to direct my having the stated look at I made a mistake as to the city officials not being required to give bond under the commission form and my recollection was that there was no such provision. My mistake was not unusual to any lawyer who tries to give an opinion without carefully examining the statute at the time.

The memory of even the most conservative people is uncertain. Memory being uncertain every item or important matter should be authoritatively committed to writing in some book or record so that the fact could be established, but under the commission form of government as conducted in Jacksonville, there is no record as I am advised of the assets or property of the city. For instance I understand that the city has thirty five or forty hogs which are being fed the slops collected by the city, but that there is no book or record of such property belonging to the city. I suppose some city official or employee could get short of meat, and, well, say the city should subsequently get short a hog or two—how could the record—there being no record—show any thing of what became of the meat.

Or say for instance the people should vote not to issue bonds to buy a truck, etc., for the city fire department and suppose the city should be using shortly thereafter a nice auto truck and should change its administration and suppose the retiring officials should take the apparatus and the Ford with them—what would the records show about it? They tell me that the way the city books are kept no assets are shown. All that is shown is receipts and disbursements. You can't tell from the books the cost of electricity to the city or the cost of water or any thing else—they simply keep their books blind so that some private corporation can come in and say: "We can furnish power cheaper" and no one can say, "No you can't" and prove it, or the same as to the cost of water.

I say we have no protection to the public and to public property under the commission form of government as if we had a kaiser. We don't know from the records if we have public property belonging to the city—all we know is we have debts—lots of debts—taxes, high taxes—bond—which mean bondage. Interest to pay twenty per cent. Oh, isn't it just lovely! The average tax payer has about the same chance as a country dog in town and you know how uncomfortable they appear. There are a few old citizens and some other liberty loving people who long to return to the promised land—"Representative Government", why don't we all join. Let us go back home. Back to the time when we had a representative to speak for us, and to whom we could speak and receive kindly attention and consideration. I don't like this star chamber business—where they get together quietly and say nothing out loud. Let us stand for "our government" not "their government". Rally round the "flag"—not around the "boss".

POLITICIANS BUSY IN SANGAMON COUNTY

Numerous Candidates for Office are Announced—At Least Seven Want to Go to the General Assembly.

Political conditions are active in Sangamon county and there are many candidates for county offices. The activity is not confined to the county offices and there are several avowed candidates for members of the general assembly. Sheriff John A. Wheeler will seek the Republican nomination for state senator and it is understood that William J. Butler will be a candidate for the same office. Some months ago the Morgan County Republican Central committee endorsed C. P. Wemple of Waverly for the nomination but Mr. Wemple has not definitely indicated his purpose to become a candidate. Thomas E. Lyon and Jacob Frisch, present members of the legislature, are candidates for re-election and Rev. W. C. Schaeffer of Pleasant Plains, chairman of the Sangamon county board of supervisors, is also a legislative candidate. A fourth candidate for legislature is

Fred Wanless of Riverton. On the democratic side Hon. E. L. Merritt is an active candidate and it is understood that the announcement of Clarence Jones will soon be made. Mayor H. J. Rodgers of this city is likely to become a contender for the Democratic nomination and still other candidates are expected to appear on the political horizon.

EXPRESS COMPANIES TO HAVE JOINT OFFICES

Along with other business combinations that are in prospect it is understood that the joint operation of all express companies is only a matter of time and a very short time at that. This step will be taken at the request of the government, the purpose being to reduce the amount of equipment and the number of employees necessary in the handling of the express business. It is said that the result in Jacksonville and other cities of like size will be to have but one express office.

CHARLES EATON DIED AT HOME IN EAST

Deceased Long Prominent as Shoe Manufacturer—Telegram Ensign Eaton to Walter Ayers Told of Death.

A telegram received yesterday by Walter Ayers from his son-in-law, Ensign Louis Eaton, announced death of the latter's father, Charles A. Eaton at Brooktown, Mass. Death came very suddenly and it is a regrettable fact also that Mrs. Eaton, wife of the deceased, is very ill in a Brooktown hospital. Ensign Eaton was at home on an eight day leave of absence from the battleship Arizona on account of the illness of his mother.

Charles A. Eaton was the head of the Eaton manufacturing concern, long established shoe manufacturers in the east. The company, which is now managed by the elder son, Chester Eaton, is the owner of three New England shoe factories of large capacity. Charles A. Eaton was a close friend of Rev. Julian Wadsworth, formerly of this city, during his Brooktown pastorate. Mr. Eaton being one of the most active members of Rev. Mr. Wadsworth's church.

PATRIOTIC LUTHERANS

One of the most patriotic neighborhoods in Morgan county is that in the vicinity of the Immanuel Lutheran church located five miles north of Meredosia. At that church Friday afternoon Liberty Day was appropriately observed. At this meeting there was discussion of various patriotic movements and a committee was appointed consisting of William F. Roegge, John Kormeyer and Herman Staake, to obtain subscriptions for the third Liberty Loan. In a comparatively short time they had secured forty subscriptions for bonds, amounting to \$8,000. The members of Immanuel Lutheran church is composed of 32 families and they have shown commendable interest in all war activities. In addition to their bond purchases members of the congregation have subscribed \$1,025 for War Savings Stamps. They have given more than \$200 to the Y. M. C. A., Red Cross, war camp community and recreation fund and other war activity. The people there can be counted on to do their full share in aiding all good causes during the period of the war.

TWO SERMONS.

The pastor of State Street Church, Rev. R. B. Wilson, will give the first of two sermons on Clara Barton, "The Angel of the Battle Field," Sunday evening at eight o'clock. This first sermon will deal with her early life and her experiences in the Civil War. The second, with the other war material for these sermons is gotten from Rev. Percy Epler's life of Clara Barton. This subject at this time should interest every worker in the Red Cross, for this woman is the founder of this great work. Think of the blood-ridden fields of Europe and what the Red Cross is doing, and then come and hear of the woman who started such a work for us to do. Good music and the services will be short.

BRITISH TANK TRIAL TRIP DESCRIBED

Birmingham, Englan., April.—Joy-riding in a British tank means hanging on for dear life in a deafening roar of machinery while the machine lurches up and down the grades, alternately tossing its passengers first one way and then the other. A trial trip is thus described.

"We accepted, with some trepidation, an invitation to make a journey in the machine. About half a dozen of us entered by the narrow door and were cramped in the platform which runs on each side of the machinery. We held on like grim death with our hands. For a few moments everything went well. Then there was an upward movement of the fore part of the tank and in a trice we found ourselves without a foothold and were suspended by our hands from the 'holdfasts' which are fixed for the purpose to the roof of the car. We knew we were mounting the steep gradient and were not sorry when we reached the top.

"The vessel jerked violently as she started on her downward course. In the twinkling of an eye we were thrown into the same position as before—only more so—with our legs dangling and our hands gripped in the effort to hold on and prevent being thrown all of a heap. We eventually emerged none the worse for the trip, but with a vivid impression of what must be the life of the gallant crews to whom car experience was a trifle as compared with theirs in the midst of shot and shell and with their own guns blazing away.

"The roar of the machinery in the confined space was terrific. The man with the strongest lungs, shouting in the ear of a man of the acutest hearing could not make a syllable heard."

SOUTH AFRICA SEIZES PROPERTY OF ENEMY

Capetown, April.—A report issued by the official Custodian of Enemy Property in South Africa shows that 26,000 enemy stockholders controlled nearly \$40,000,000 worth of stock in South African mining companies. The Custodian has taken charge of all this stock, together with other enemy property, such as farms and business and trading concerns.

The work of liquidation has been enormous, but it is now asserted that "there is not a single firm in South Africa carrying on business wholly or chiefly in the interests of enemy persons."

TAKEN TO COURT FOR WAGER ATTEMPT

London, April.—Hearing Harry Johnson officials of fifty thousand dollars to five on the success of the enemy, a policeman took him to court and charged him with making statements likely to interfere with the success of the King's forces. The magistrate described Johnson as a "silly windbag" and put him under £100 bonds to behave for six months.

GREAT PARADE FOR MEMORIAL

Both Will Be Made Occasion
Loyalty Demonstration—
us Promise to Exceed All
vious [Professional] At-
tempts in Jacksonville.

Thursday, May 30th is Decora-
tion Day.

At this date it has always
the honored custom to pay
tribute to our soldier
and added respect to those
or veterans yet remaining
us.

In present year the date
is accurate within our
us all the patriotism and
we possess to make the
glorious one for these old
and in addition to make
noteworthy event in regard
giving of new impetus in
present day cause and in the
of day struggle.

It has been proposed that
Memorial Day in Jacksonville be
one of the greatest events
in this city has even seen in
form of a huge parade, a
out-pouring of the patriots
country, colossal loyalty
demonstration.

An executive board of the
Memorial Day Patriotic Par-
ade committee have definitely
announced that such a plan has
been launched and will be
a happy culmination.

The committee in charge of this
work has already been busy on
details of the affair for some
days and judging from some of
the plans for the enterprise
which were shown the reporter
yesterday the event will without
doubt outdo anything ever at-
tempted here.

Jacksonville has never yet
staged a real loyalty demon-
stration, such as the community
is really capable of and it is cer-
tainly appropriate that the com-
mittee in charge saw fit to make
Decoration Day the date for the
culmination of their plans.

Beside the special tribute to
the old soldiers on this occasion,
the parade, and possibly other
events now tentatively scheduled
for the day, will be sure to do
much towards arousing the pa-
triotic enthusiasm and known
loyalty of this community and
to promote the sale of Thrift
and War Savings Stamps, Lib-
erty Bonds, to loosen the purses for
other war funds. It is the belief
of the executive committee in
charge of the sale of Thrift and
War Savings Stamps for the
county that such a demonstra-
tion will undoubtedly lead to an
increased sale of the stamps.

There is absolutely no doubt,
however, but that Jacksonville's
1918 Memorial Day parade will
be a record breaking patriotic
demonstration.

HIGH SCHOOL SENIORS TRAIN FOR PLAY

Will Present "Christopher Jr."
Next Tuesday Evening

Extensive preparations are be-
ing made at the Jacksonville high
school for the senior play which
will be given Tuesday evening,
April 30, at the David Prince
building. "Christopher Jr." is
the comedy in four acts which is
to be presented and those who
have witnessed the rehearsals de-
clare that it will be excellently
done. John Drew and Maude
Adams have appeared in this com-
edy, which has known great popu-
larity on the American stage.
For the Jacksonville presentation
Glidden Reade will be the leading
man. The high school pupils are
quite interested in the fact that
John Drew happens to be coming
to Springfield this week.

Christopher Junior, is essentially
English in character and at-
mosphere. The scene is laid in
England and the British posses-
sions in India. The story con-
cerns the trials and final reju-
venation of Christopher Jedbury,
a young man reputed to be a
scoundrel and ne'er do well but
who in reality is to brand him as
such a character. His father who
is a somewhat irascible gentle-
man becomes estranged from his
son because Christopher Jr. does
not agree to follow his father's
wishes concerning his future. The
play presumes when Jedbury Sr.
discovers that his son has been
married secretly. Jedbury Sr.
sends his son to India as a clerk
in one of his mercantile houses.
After he has been in Bombay for
six months Christopher Jr. de-
tects his father's managing man,
Mr. Simpson, in a series of frauds
which the manager is perpetrat-
ing. He thwarts the scheme of
Simpson but in so doing is forced
to communicate with his father
thru his sweetheart, Dora, who
has come to India with her Uncle
Major Hedway, and the union of
the lovers takes place and Chris-
topher is reinstated in his father's
good graces. There is a glimmer
of humor throughout the play and
wherever it is it is always in good
taste and does not spoil the plot
nor is it in any way derogatory
to the play.

GOOD METRO AT
GRAND MONDAY.

Edith Storey, Metro star, who
comes to the Grand Monday, is a
player possessing great dramatic
talent and athletic prowess which
stand her in good stead in her
portrayal of Carmichael in
Metro's feature photodrama "The
Eyes of Mystery."

This gifted star was born in
New York City. It was while
studying in the public schools of
New York City, where she received
her education, that little Edith
became imbued with a desire to
act.

She began her motion career
with Vitaphone, with whom she re-
mained for several years. One
year of this time was loaned to
the Melies company for a series of
Western pictures.

"The Eyes of Mystery," is Miss
Storey's initial appearance in
Metro pictures, and its vital dra-
matic qualities give her splendid
opportunity to display the talent
that has made her a favorite with
the motion picture public.

BIG THINGS DONE BY RED CROSS IN FRANCE

Thirty Canteens Behind Front
Line Provide Comfort and Cheer
for American Soldiers—Prob-
lem of the Refugees.

Big things are being done by
the Red Cross back of the Amer-
ican lines in France.

A network of thirty canteens
for our troops serves refresh-
ments only three miles behind the
front line, and at many other
points in France American sol-
diers find the Red Cross canteens
ready to provide comfort and
cheer.

Only men of the highest cour-
age can operate a Red Cross front-
line canteen. They are constantly
under shell fire and sometimes
when the Germans make a big
lunge forward they are captured.
In spite of this the canteens go
right ahead serving hot drinks to
our troops and otherwise keeping
up their spirits.

In addition to our soldiers the
Red Cross has had a great prob-
lem in handling the thousands of
refugees who have been suddenly
thrown out of their homes by the
German attacks. One Red Cross
kitchen fed more than 75,000 re-
fugees recently.

Two new hospitals for officers
and enlisted men have been opened
in France, and ten farms are
being operated for the benefit of
the convalescents. The Red Cross
also has seventeen moving picture
machines in operation to enter-
tain men in base hospitals. The
average attendance at each per-
formance is 500 men.

Thus the American people can
see that the money they subscribe
to the Red Cross is being used
just as they would have it used—
to put sunshine into the lives of
the valiant defenders of civiliza-
tion.

"WITH THE COLORS."

An interesting letter was re-
ceived a few days ago by Mr. and
Mrs. W. P. Saner of East State
street from their son, Clarence
Saner, now stationed at Camp
Joseph E. Johnston, Jacksonville,
Fla. Clarence, a former Journal
employee and represented on the
Journal company's service flag,
has just completed his course for
a clerical position in the quar-
termaster's corps of the army and
was a few days ago awarded the
diploma. This course of study,
which covers a period of six
weeks, really embraces a course
which would ordinarily take three
months or more to complete. The
army men, however, being given
an intensive line of work and al-
though strenuous, is a saving
of much time for the government
and the students. Mr. Saner is at
present a member of clerical com-
pany No. 4. Some idea of the
size of the Camp Johnston can-
tonment may be had from figures
given in a pamphlet which Mr.
Saner recently mailed to his par-
ents. A few of the construction
figures are as follows:

Lumber required, feet B. M.,
18,500,000.
Nails, lbs. 516,400.
Foundations include, posts,
26,000.
Window sash, 40,000.
Doors, 6,000.
Electric light wire, miles, 171.
Electric globes, 1,000.
In the work of erection 3,707
carpenters were employed, 238
plumbers, 2,357 laborers and 230
electricians.

Parts of Mr. Saner's letter are
given herewith:

My dear ones:

I took a trip down to St. Augus-
tine two weeks ago yesterday.
It is the oldest city in the U. S.
and I went thru the old port at
Marion. I was in one of the dun-
geons that a person could only
live in for two and a half hours.
I was in the cathedral which is
one of the oldest in this country.
It is built on the old Spanish mis-
sion style and is very spacious
on the inside. I went thru the
oldest house in America and was
in the slave market place, which
is situated in the center of the
park. We drove over to the beach
which is across the bay from St.
Augustine. Saw the government
wireless station and lighthouse.
The ocean was very rough, throw-
ing waves away up on the beach.
Saw three patrol boats, which you
would call nice yachts. They are
very swift boats, having two
small guns mounted on them.
They are driven by three gasoline
engines but very seldom use
more than one of them. The trip
cost about \$7 but was worth while
as it had long been my desire to
go and visit the oldest city.

I received your Easter package
with which I was very much
pleased. I divided it among some
of my friends. You won't have
to send the other bags, for I don't
think I will be here.

I am enclosing my diploma
from the clerical school. I think
I will be on my way "over there"
before long. If everything looks
like it does now, Well, I will have
to close for the present as it is
late.

Your son,
Francis C. Saner.

BOY SCOUTS CELEBRATE
The boy scouts gave a liberty bond celebration Saturday night on the top of the Ayers National Bank. They had a small cannon with them and saluted the American flag. Lights were turned on the flag. People on the streets were very much interested as to where the shots came from and what they were for.
In the afternoon the Boy Scouts formed in parade about the square at intervals fired a cannon, all as a matter of publicity for the sale of Liberty bonds. They carried a huge banner telling about the bonds.

SUNDAY SCHOOL WORKERS IN CONFERENCE
A business meeting of the executive committee of the Morgan county Sunday School association was held Saturday afternoon at Ayers National bank. W. H. Crum of Literary, presiding. Matters of routine business were given attention and delegates chosen to the state convention at Peoria in August. J. S. Finley and A. R. Weddell were named as a committee to appoint a secretary to succeed Carl H. Weber, who recently resigned. The organizing of the county Sunday schools for special activity in the war savings stamp campaign was also discussed at some length and it was decided to devote the summer months to a special effort in this line. Another subject considered was the special effort now being made to raise the \$200 for war work in the county Sunday schools. The plan to hold precinct conventions thruout the county was determined upon and these are to be inaugurated in May.

Exactly What the Famous Edison Tone Test Demonstrates

Picture a concert hall crowded with discriminating music lovers. On the stage stands a renowned Grand Opera Star: Ciccolini, for example. He begins to sing some famous aria. Thru the vaulted interior peals a glorious tenor voice, brilliant, resonant, warmly dramatic, of splendid volume. The audience sits entranced. Suddenly a rustle of interest is felt. Each face betrays wonderment, astonishment, stupefaction. What miracle is this! First one, then another has noted that the singer's lips have become motionless. And yet, clear and vibrant, fully sustained, the aria continues. Unquestionably Ciccolini is still singing. Not one shade of difference can be detected. But his lips have stopped moving. What is the explanation?

It is simple. In a sense the artist is still singing.

The New Edison

"The Phonograph with a Soul"

which stands beside him is playing one of his records. When he stopped the record continued. And so complete and perfect is the Recreation of the artist's voice that the listeners cannot credit the fact that he has ceased. This is our famous tone test which has been made by thirty different artists. This is this daring parallel, the searching trial which satisfies the most confirmed skeptic that Thomas A. Edison has evolved a new art; that in the

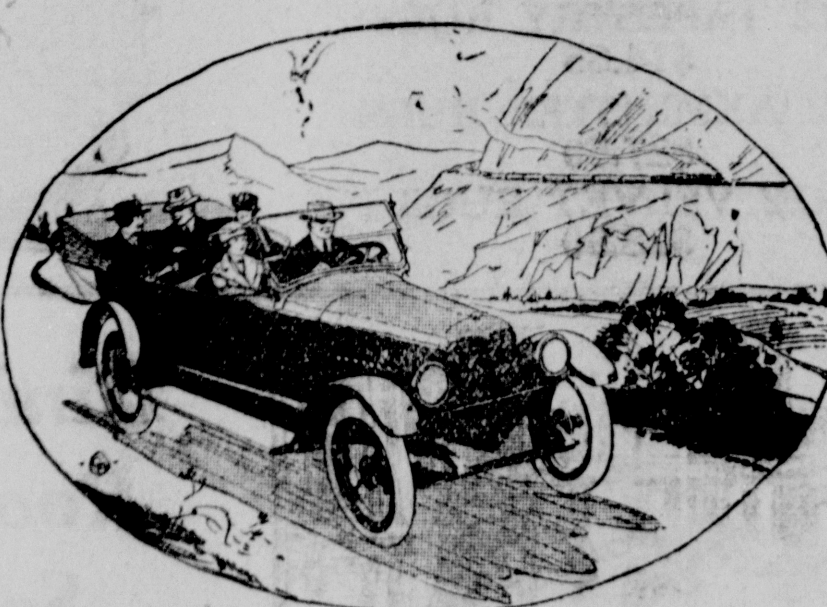

New Edison he has succeeded not merely in imitating, but in actually Re-Creating, the voice of the living artist. Have you ever heard of any other manufacturer of a sound-producing instrument who dared risk this test; who dared submit to the daring parallel?

Come in for a demonstration and see for yourself just what we mean by Music's Re-Creation.

Help The Freight Situation

There is a tremendous movement of freight on the railroads. War supplies are being transported in such vast quantities that congestion is bound to develop at terminal points.

Therefore, the Government has earnestly requested the public to postpone all "unnecessary traveling." It has said in very plain terms—"Please keep off the railroads."

By all means observe this request. Buy a reliable motor car—just such a car as the Paige, for instance—and use it, not only for side trips, but those longer journeys as well. Encourage the Touring Movement. It will help Uncle Sam and afford healthful relaxation for you and every member of your family.

NAVAL BAND TOURS OF VALUE IN CAMPAIGN

Is Indicated By Reports From Detachments of Great Lakes Organization for Liberty Loan—Meeting With Enthusiastic Receptions.

Great Lakes, Ill. April 26.—Reports received by Captain William A. Moffett, commandant at Great Lakes Naval Training Station, from the fourteen detachments of the famous Navy band now touring in various Federal Reserve Bank districts for the Third Liberty Loan, demonstrate the tremendous value of the musicians in the campaign.

Entirely different plans to use the Great Lakes bandmen in the present Liberty Loan drive from those adopted in the Second campaign, whereby smaller bands would be scattered thruout a large territory instead of a large band visiting the big cities, are

working out successfully and Liberty Loan officials, writing to Captain Moffett, declare the results will be far-reaching. Coming as the drive does just as the Navy is putting forth efforts to increase enlistments in all branches of the Naval Reserve force, a double purpose is impelling the musicians.

Band detachments touring the western states are meeting with particularly enthusiastic receptions and the Liberty Loan subscriptions are proportionately larger than on the second campaign.

An effort was made by the Liberty Loan organization with the co-operation of Navy officers to send detachments of the band to locations where subscriptions to previous bond issues were lacking.

Emphasis also has been given to communities where the foreign population is large. Thus Wisconsin alone has been given three band detachments of 25 musicians each and Liberty Loan leaders in that state report that a great good is being accomplished in addition to the impetus given Liberty subscriptions.

The 54 piece band touring the Fourth district out of Cleveland, Ohio, ran into a snow storm in Western Pennsylvania and as a result had to obtain the services of a chiropodist, who put the boys into marching condition again.

The bandmen while enjoying the tours are having a hard work-out. In many districts the itineraries include as many as five towns in a single day. On several tours the men sleep on trains, traveling every night.

So enthusiastic has been the support given the campaign by Captain Moffett that only a bugle corps and an orchestra used in rehearsing the sailors' opera "Leave It to the Sailors" remain on the station. The buglers are here only because of necessary military work.

PATRIOTIC LECTURE. The Rev. James O. Kirkpatrick will deliver a patriotic address at 8 o'clock this evening at Grace church. The lecture will be illustrated by a set of beautiful stereopticon slides made by the U. S. government and showing many of the churches and cathedrals of France. Mr. Kirkpatrick is an eloquent speaker and the lecture is one of thrilling interest to the patriot and of charm and fascination to the lover of art. Miss Margaret Scrimger will sing "Keep the Home Fires Burning."

GOOD FOR RACINE

Lloyd E. Pitner in a letter to his parents says of Racine: "In the last Liberty Loan drive Racine's quota was \$1,860,000.00, which they raised in fourteen hours after the drive started, and have now more than doubled their quota, and are well on toward three times the amount. How is that for Real patriotism and 'German' Wisconsin?"

James H. Bedwell of Murrayville precinct was among the business men of the city yesterday.

A New Sedan for The Hudson Super-Six

THE Sedan is another popular type that was introduced by Hudson.

It is natural, therefore, that this new model should be an advance over the cars of similar type which have preceded it and which are now its contemporaries.

Those who have used Sedan bodies know there is much more to the mere appeal they make to the eye and to the comfort of the passenger. There is the vital question of sturdiness.

A body of its type with its permanent roof, if not properly designed and constructed, is apt to give endless annoyance. Such has been the experience of thousands who have had cars designed by those who did not know how to meet the various stresses which are responsible for squeaks, sagging roofs and the general breaking up of the bodies.

Then, too, not every chassis is suitable for carrying a Sedan body. Sturdiness of frame and power of motor are very essential.

These are things the inexperienced buyer is not likely to think about. They are important

to know. You may make a mistake and get a car that is not suitable to carry a Sedan body.

Important That Car Stays in Adjustment

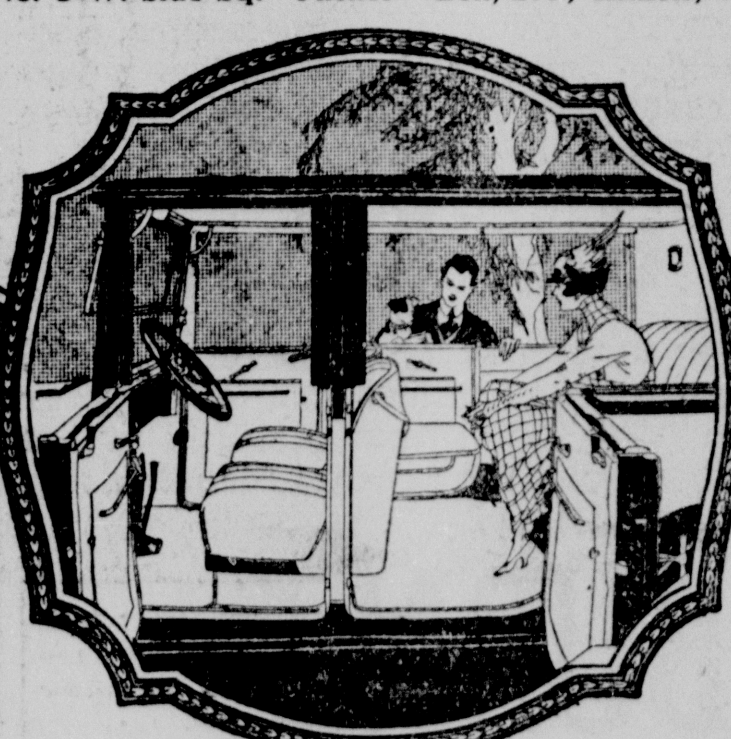

The best repairmen and mechanics are now in the army. They are needed to repair its motors. You either must have a car that does not require such frequent service attention or else put up with much inconvenience.

All motorists are familiar with Super-Six records for endurance. Every test showed ways to further increase Super-Six endurance. There are fifty thousand Super-Sixes in service. All that was learned from them has been put into the New Hudson Super-Six.

Ask any Super-Six owner about the service he is getting. Let what you can learn about it in your neighborhood determine if it is the best car for you to buy.

If the Sedan does not interest you, you will find a body you will like among the ten different types we are building this year.

Note the roominess of the Hudson Super-Six Sedan. There is the open airiness of a summer porch or the complete protection of the conservatory. Two doors on either side permit of easy access to front and rear seats.

The seating arrangement comfortably provides for five persons. Auxiliary seats fold out of the way when not wanted and give comfortable accommodation for two additional passengers.

True Patriotism Is Economy

We who remain behind have our part to perform. The business man and farmer must work in the most perfect harmony. It is trying on us all, but we must not complain. Just work, but work to help the other fellow. Selfish interests must be forgotten. Work to produce the maximum. More and larger crops must be grown by less labor. The ground must be put in proper condition for quick germination and a continuous growth. Therefore, be prepared. A most important tool is the Disc Harrow, and Drag Harrow, and where can you obtain the equal of the FAMOUS OHIO.

A DISC HARROW built for service, with penetrating qualities that are equal to any. Extra strong construction. Antifriction bumpers. Hard maple boxings, with hard oil cups. Very flexible. Will conform to any uneven surface. Light draft. Levers conveniently located. Scrapers conform to disc and are oil tempered steel. Connection of gangs has the drop frame construction. The draft bars are so formed that they give an even pressure on disc blades no matter at what angle they are set. The discs are the best to be had. Very hard and perfect scouring qualities.

OUR CASH DISCOUNT SAVES YOU MONEY

One of the strongest built U-Bar HARROWS on the market. Extra flexible, allowing the harrow to conform perfectly to uneven ground. Teeth of best tempered steel. Each tooth is headed by hand, assuring a perfect head which prevents them from dropping out should clamps become loose. The teeth are spaced and arranged so they cut all the ground and will not trail or track. They are also held in place by a specially designed clamp, bolted directly through the bar. The levers which regulate the slant of the teeth are amply long and convenient, permitting easy operation at all times. Frame extra heavy and of very best of material.

AIRPLANES TO AID IN
THIRD LIBERTY LOAN

Aviators in Texas Training Camps Bombard Towns With Data Urging Subscriptions to the Loan.

Dallas, Texas, April 26.—Following the announcement from Washington that government airplanes may be used by local campaign committees in aiding the Third Liberty Loan campaign, aviators in Texas training camps have bombarded towns with data urging subscriptions to the loan.

A squadron appeared over Dallas on the second day of the campaign and bombed the city with circulars on red white and blue paper. Thousands of people baited in their daily business to read the circulars and watch the flyers who passed over town in battle formation. After circling the city several times and going thru dives and dips, the aviators returned to camp.

The circular read: "Somewhere in France with the American Army—To Our Kindred and Friends in Dallas County: We are in a death struggle with the most merciless foe on earth. We are giving our lives for the preservation of our homes and we want to know that you are standing behind us with the entire resources of our country. All bridges are washed away and we can never return unless we return victorious. Whatever we do must be done now, or it will be too late. (Signed) Your Own Boys."

A Great Cartoon.
In last Monday's Chicago Tribune was a cartoon by Claire Briggs, which will go down as one of the greatest produced during this world war. It showed a picture of a poor old family dog whose best friend had gone. The picture shows the tracks of the dog around the house and up on the front porch and then down to the front gate where it stands looking expectantly down the street for its master. A little service flag with one star shows that the master of that dog is somewhere "Over There," doing his bit for his country. In thousands of homes in this country, today, are just such dogs who are mourning for masters who may never return. But with the love and fidelity inherent in every dog, be he of blue blood or just common dog, he will wait patiently that master's return and be ready to give him a joyous greeting should he be spared or follow his mortal remains to the last resting place where he will stand faithful guard to the last.

TO HONOR COLORED SOLDIERS
Members of Matt Starr post are earnestly requested to attend the meeting at the Court House Monday night in honor of the colored contingent who have been called to the colors. As that race fought with us on the blood-stained fields of the south in defense of the old flag in the dark days of the civil war, let us honor their descendants who are soon to leave for the training camp and later take their place on the battle front on foreign soil. The history of the colored people from the foundation of the government has been one of loyalty under all conditions and they have always stood four square for the flag, even when it was stained with the foul blot of human slavery.

The Sun-Ray Lens

A Better Lens—at a Lower Price.

Here is the new Sun-Ray Lens—one that gives you all the advantages of other lenses, and more.

Yet it sells profitably at \$1.75 per pair.

Sun-Ray Lens gives all the advantages of diffusion, plus all the advantages of deflection.

It meets the complicated legal requirements of every state in the Union.

Thick triangular prisms on the inside of the lens give wide side diffusion and reduces glare without interfering with the effectiveness of the driving light. Horizontal prisms, also on the inside, bend the light rays down on the road, preventing waste light up in the air, and complying with all 42 laws.

The outside surface is smooth, preventing dust, mud and snow from caking on the glass and dimming the light.

The Sun-Ray Lens at the \$1.75 price offers a tremendous opportunity to dealers everywhere. In Sun-Ray Lens you are able to offer your trade a scientifically designed and constructed lens—a lens with real talking points and exclusive features—and for \$1.75 a set, any size.
